THE STATE OF THE ART IN DESIGN

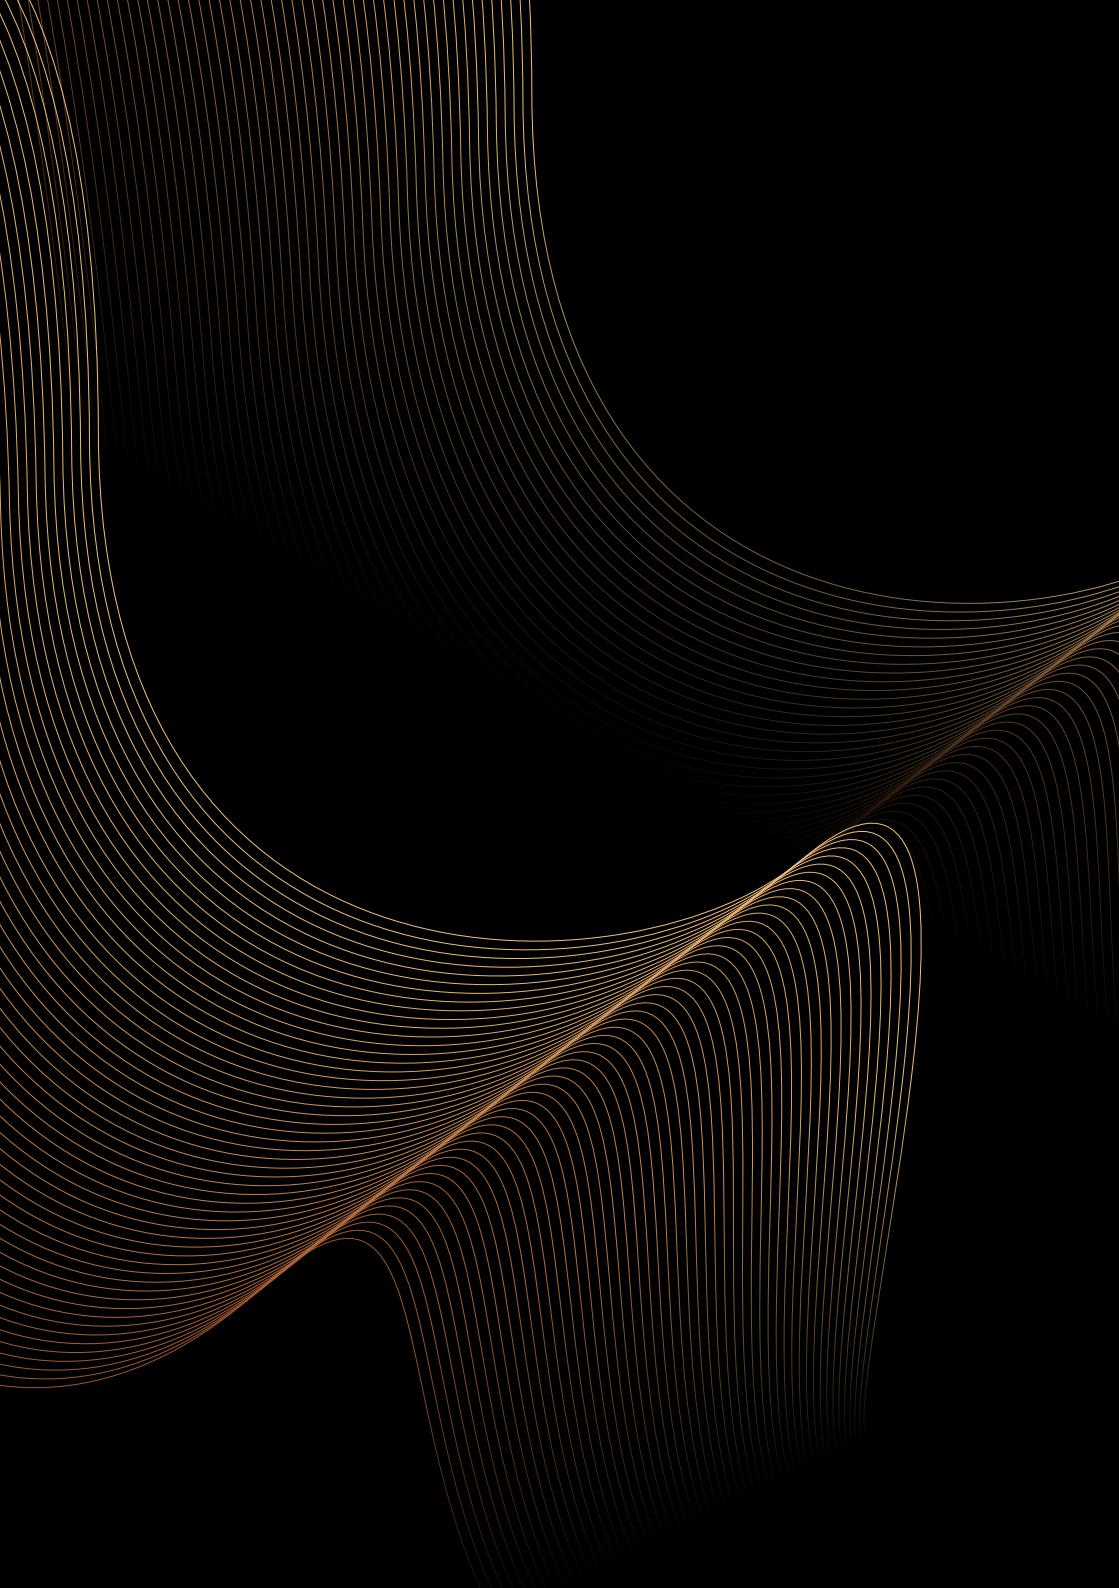

The ADA aim to reward experimental research and innovation, but above all to emphasize the emotional and functional power of the project.

It's the "magic of the project", the collaboration between brands and designers getting together to combine resources and talent, giving shape to the creative process.

"The challenge lies in creating shapes and functions able to make life better, thanks to beauty, harmony, innovation, functionality and technology", says Enzo Maiorano, Archiproducts Co-founder and Art Director.

With an even greater participation at the sixth edition and a focus on the future of Product Design, the Archiproducts Design Awards asserts itself once again as a benchmark in the Industry.

This year, the jury evaluated over 750 submissions from all over the world and chose the best of the best for their originality, innovation, and experimentation.

THE BRAND AWARD

The ADA 2021 trophy for brands is a unique almost hand-crafted object, manufactured and finished by De Castelli, for the third year Partner of the Archiproducts Design Awards.

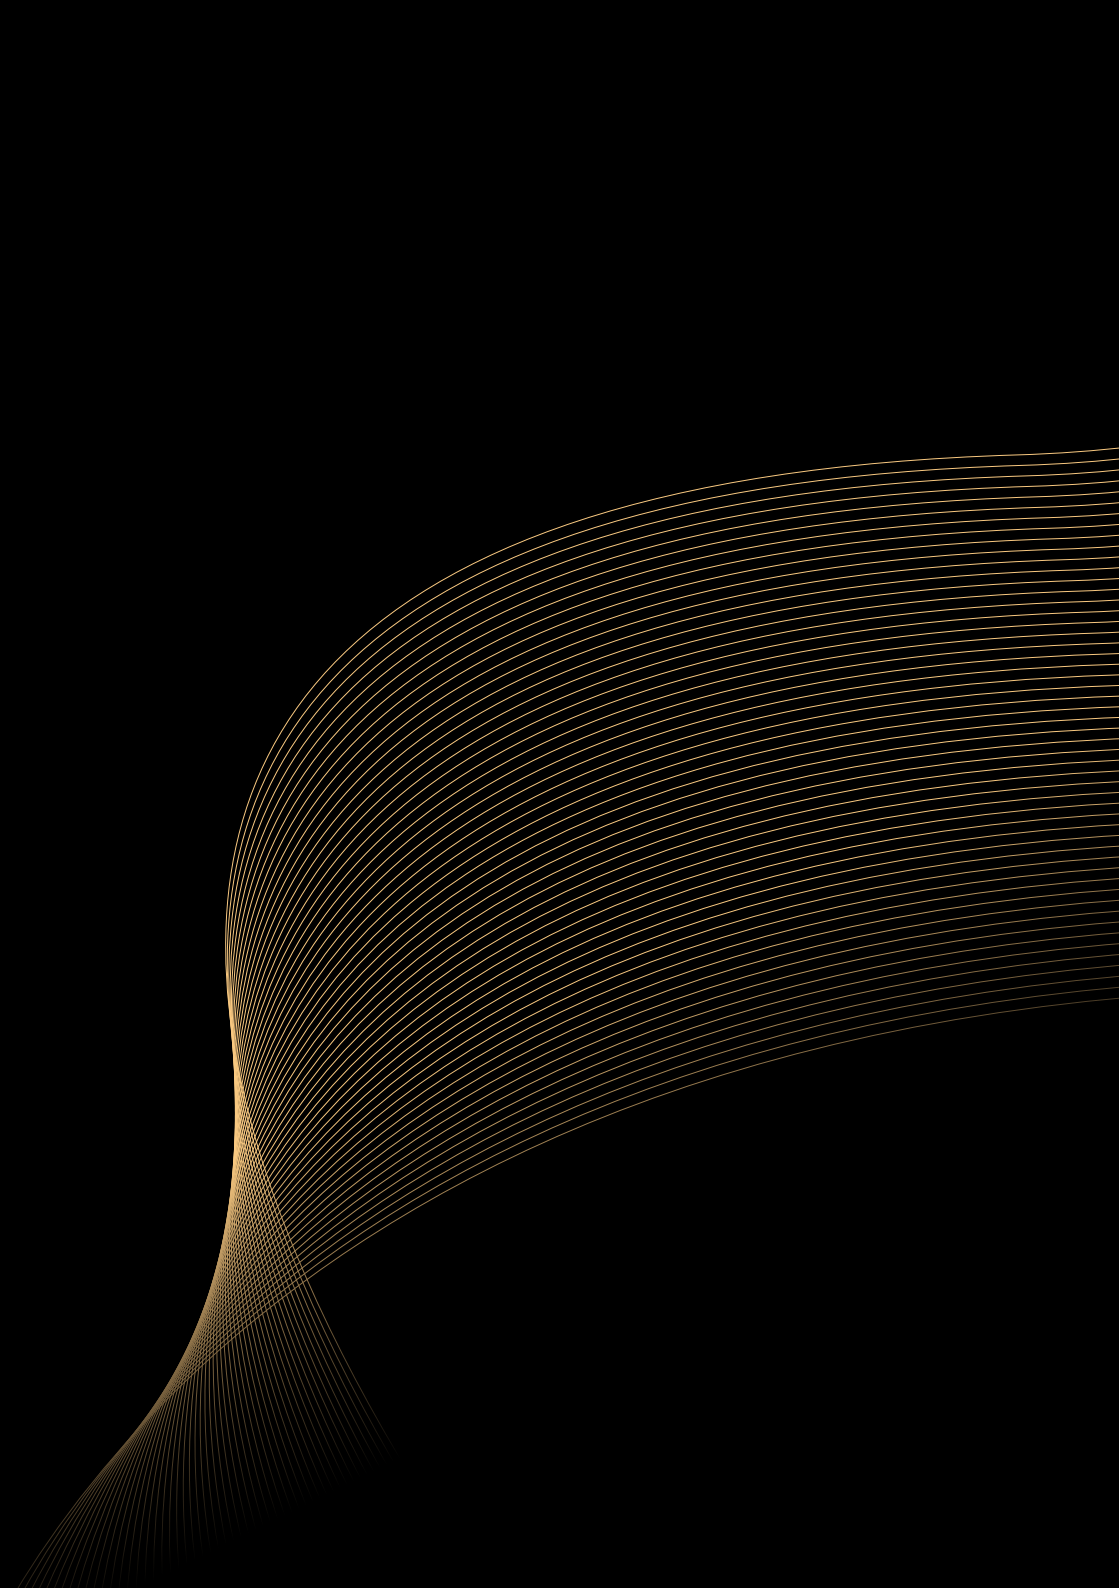

Following the fascinating design by Alberto Sánchez and Eduardo Villalón (MUT Design), each item mimics the shape of a Möbius strip and explores the unlimited potential of metal.

Oxidation after oxidation, the trophy wears an unprecedented black DeLabré finish, for a magic mix of both shades and design.

Obtaining products like this is possible thanks to the deep connection established between brand and designer.

“Collaborating with an artist can give us a new sensibility, a vision, the ability to interpret things”, explains Albino Celato, founder of De Castelli.

A value that has always been at the core of the Archiproducts Design Awards and that keeps on inspiring companies, professionals and people worldwide.

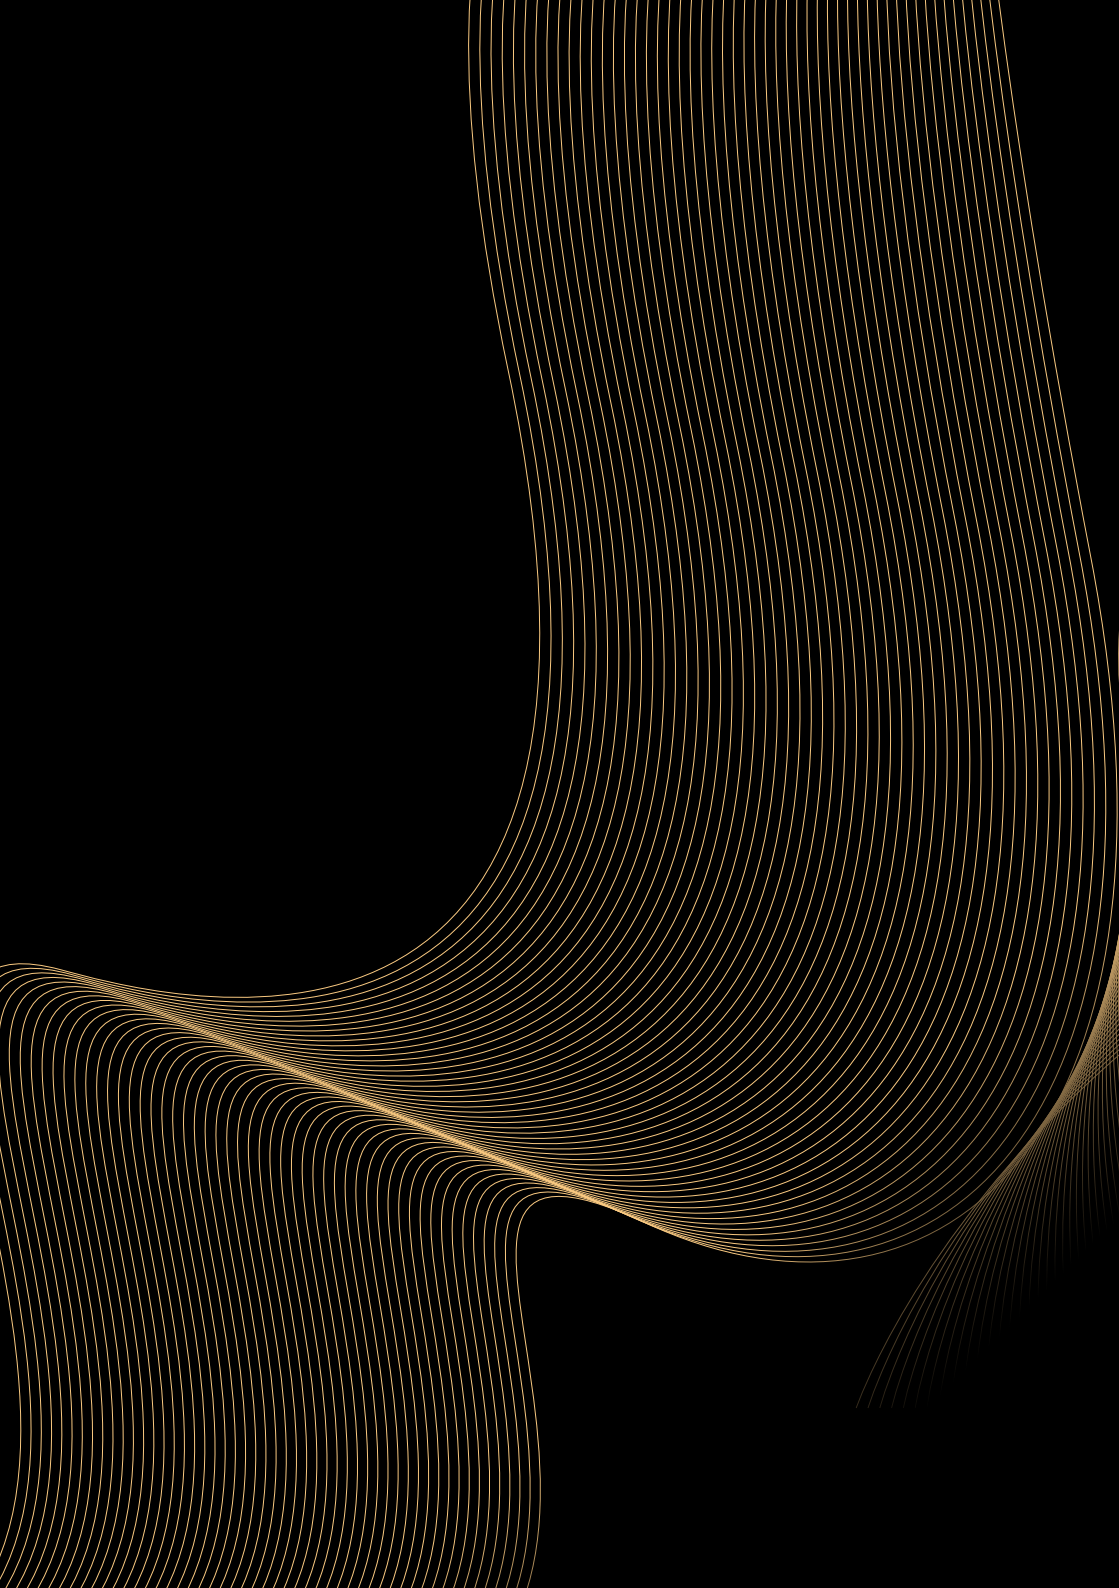

THE DESIGNER AWARD

For the second year, the Archiproducts Design Awards have decided to reward the designers behind all winning products with an exclusive, one-of-a-kind trophy.

An object/icon designed and manufactured by two of the leading figures in the Design world: Michael Anastassiades and Salvatori.

The Cypriot designer and the Italian brand joined forces to give shape to an extremely poetic award made of natural stone and inspired by the ADA logo.

A black engraved hexagon rising from the ground, that narrates the unique relationship between designers and brands and encourages the creation of new stories on a firm belief in the power of creativity.

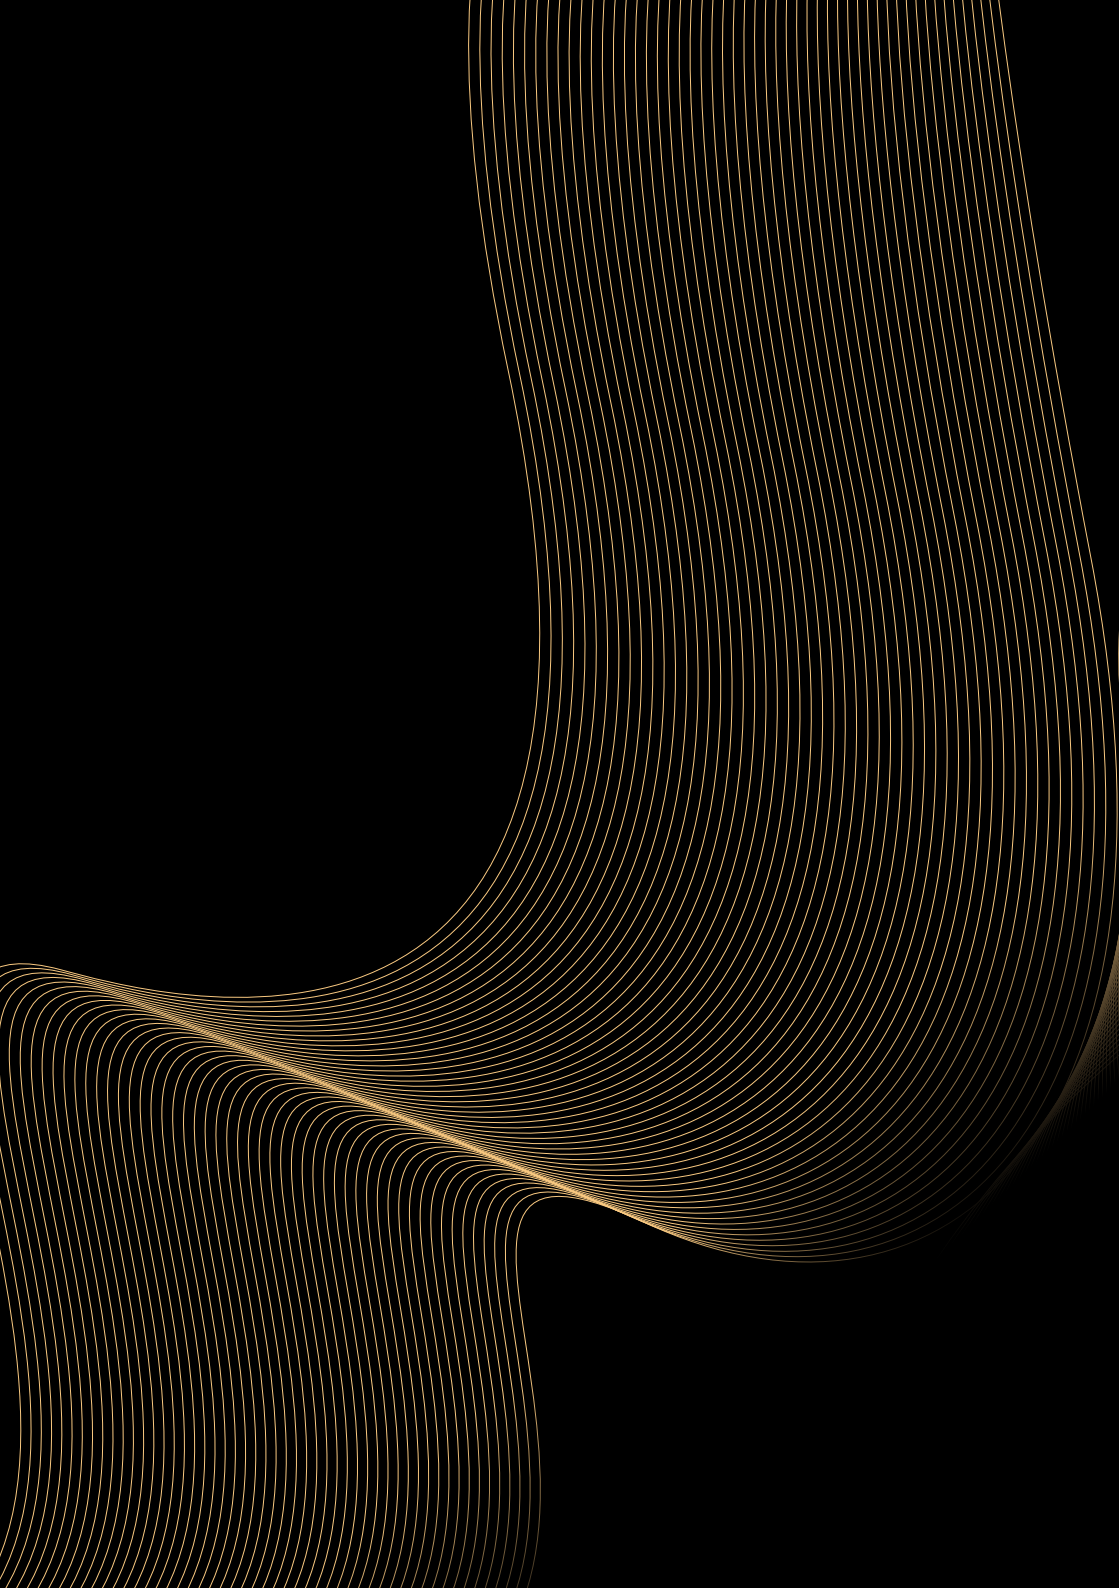

THE JURY

The 2021 jurors have been chosen to represent a broad spectrum of disciplines across the Design Industry. The result is a multidisciplinary panel including over 60 among the most sought-after architects, designers, photographers and creative directors worldwide.

Fernando Alda, Chrissa Amuah, Michael Anastassiades, Davide Angeli, Anniversary, Ark4lab of architecture, Azamit, Federico Babina, Bobby Berk, Beppe Brancato, Athena Calderone, Giovanna Castiglioni, Federico Cedrone, Domitilla Dardi, Danilo Di Michele, Giorgio Donà, Edition Office, Héctor Esrawe, Fabio Fantolino, Alain Gilles, Diego Grandi, Francine Houben, k-studio, Yama Karim, Anna Karlin, Pitsou Kedem, Satoshi Kurosaki, Piero Lissoni,

Matthew McCormick, Robert McKinley, Meyer Davis, Edoardo Monti, MUT Design Studio, noa*, Norm Architects, Harry Nuriev, Lim Koon Park, Hannes Peer, Quincoces-Dragò, Angela Rui, Patrik Schumacher, Jamie Slagel, Paolo Stella, STORAGEMILANO, Alice Stori Liechtenstein, Studio MILO, Studiopepe, Edoardo Tresoldi, Andrew Trotter, Ben van Berkel, Yu Ting, Li Xiang, Zaven, Dagmar Štěpánová.

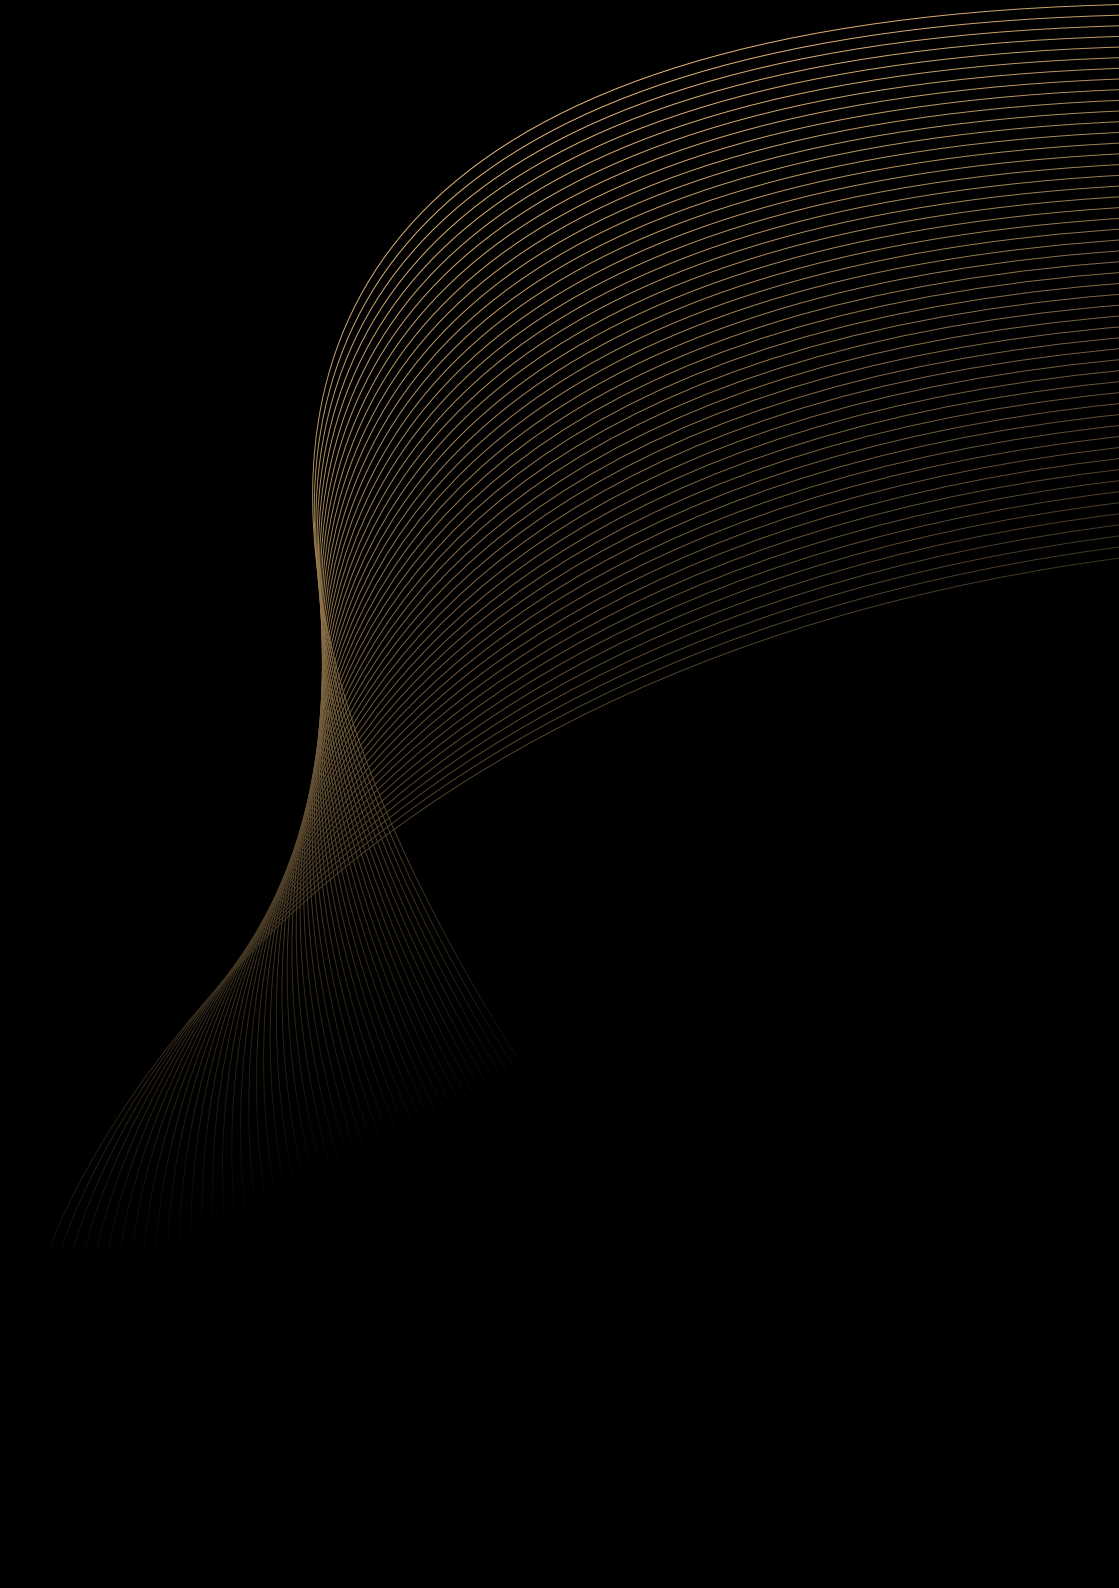

SUSTAINABLE DESIGN JURY PANEL

This year, the Archiproducts Design Awards has introduced the Special Mention for Sustainability.

A specially selected jury of experts in eco-design and sustainability from the world of architecture and design has evaluated and awarded the products following the principles of sustainable design, in terms of use of recyclable and biodegradable materials, production techniques that reduce polluting emissions, and minimum environmental impact during the product's entire life cycle.

Here are all the jurors that have awarded a selection of products with the "2021 special Mention for Sustainability":

Aldo Cibic, Dear Human,
EcoLogicStudio, Formafantasma,
Alessandro Melis, Neri&Hu,
Rossana Orlandi, Mauricio Padilla,
Matteo Ward.
